## Statement Regarding Known Issues

As an open source community based software project, KPME wishes to be transparent about known issues with the software at each release. Publically providing an exhaustive list of known issues is a deviation from common practice for commercially provided software. We believe it important to allow our colleagues who might consider adopting the software to make as fully informed decision as possible, to limit surprises that would be encountered during implementation and to eliminate the expenditure of unnecessary time discovering and confirming issues that are already known. Those known issues will be attended to in future patches and releases. To view these issues, please click the following link: [Kuali HR 2.1.0 Known Issues](#)
